FAR NORTH QUEENSLAND PORTS CORPORATION LIMITED (Ports North)

Overview

Far North Queensland Ports Corporation Limited (Ports North) is the port authority for the Port of Mourilyan and eight other Ports throughout the Far North.

Ports North's trading ports handle bulk shipments of fuel, zinc, silica sand, sugar and molasses as well as live cattle and general cargo. Community Ports supply neighbouring areas with essential general cargo and fuel.

THE PORT OF MOURILYAN

Description

The Port of Mourilyan is located about 96 kilometres south of Cairns. Its main trade is the export of raw sugar and molasses from the Innisfail, Babinda, Tully and Atherton Tablelands sugar growing districts with live cattle also being exported through the port. In addition, it services the community with public and recreational boating facilities and new trade opportunities are being sought to support regional development.

Tug services are provided by Svitzer Australia Pty Ltd tugs based in Mourilyan, while pilotage services are also provided by Ports North.

Facilities

The commercial facilities in the harbour consist of a bulk sugar and molasses terminal, a live cattle export facility and an adjacent 2ha open bulk storage stock pad (constructed in 2014 to service an expected iron ore export project). The sugar terminal has an enclosed conveyor to a shiploader and single loading berth. There are also onshore sugar and molasses handling and storage facilities and the storage shed has a capacity to store 186,000 tonnes of unrefined sugar.

The bulk sugar terminal is operated by Queensland Sugar limited (QSL) who operate six similar terminals throughout the State. All are specifically designed to receive, store and out-load raw sugar to domestic and export markets. The technology installed at the terminals enables a 30,000 tonne cargo ship to be loaded in less than a day.

Other facilities within the harbour include a pilot boat jetty, coast guard jetty, public jetty, boat ramp with parking facilities and mooring piles.

PORT HANDBOOK

Trade

In FY 2013-14, total throughput at the Port of Mourilyan was 691 267 tonnes. Sugar exports totalled 506 133 tonnes, 101 127 tonnes of molasses, 82956 tonnes of timber products and 1396 head of livestock. A total of 32 ships visited the Port.

Transport Links

The nearest town is Innisfail which is 17 kilometres from the Port. Located on the banks of the Johnstone River, Innisfail has a population of 8,500.

The nearest regional centre is Cairns with a population of 130,000 and it is about 96 kilometres north of the Port on the Bruce Highway.

- Airport

The closest major airport is Cairns, which is a major regional airport providing both domestic and international services. There is a number of bus services from Innisfail direct to Cairns Airport, please contact the ship's agent for detailed information. There is also a small aerodrome in Innisfail which primarily services the local agricultural industries.

Hire cars are available at the Cairns airport and must be pre-booked from the hire car companies directly.

- Bus

Greyhound Coaches and Premier Motor Service have a daily bus/coach service into Innisfail, connecting with services throughout Australia.

PORT HANDBOOK

PORT AUTHORITY ROLE AT MOURILYAN

As the Port authority for Mourilyan, Ports North's key role is to:

- manage and develop reliable, appropriate Port facilities and infrastructure to cater for existing and future trade needs
- maintain appropriate levels of Port security and safety
- co-ordinate emergency response
- protect the environment by minimising impact of development
- be committed to and have regard for the interests of the community.

Maintaining navigable Port depths and the provision of pilotage services is a Ports North responsibility, whilst port navigation is controlled by Maritime Safety Queensland (MSQ).

In general, Ports North uses outside service providers for stevedoring and towage operations. Local businesses that provide these services are listed in the shipping contacts directory.

PORT HANDBOOK

TERMINAL OPERATOR ROLE AT MOURILYAN

In Queensland, sugar terminals are managed by QSL under a leasing arrangement with Sugar Terminals Limited (STL).

STL owns the six bulk sugar terminals located in Queensland Ports including the Mourilyan Bulk Sugar Terminal and is responsible for the maintenance, operation and capital improvements of the terminals. The terminals were designed specifically for the receipt, storage and out-loading of raw sugar to domestic and export markets.

At Mourilyan, the terminal operation can be broken into the following components:

- receival
- sugar and molasses storage facilities
- outloading
- shiploading.

All enquiries to the operation of the terminal, arrival notices and sugar/molasses loading should be directed to QSL.

PORT HANDBOOK

REGIONAL HARBOUR MASTER ROLE AT MOURILYAN

Shipping legislation in Queensland is controlled by MSQ, a State Government agency attached to Queensland Transport and Main Roads, whose role is to protect Queensland's waterways and the people who use them by providing safer and cleaner seas.

Regional Harbour Masters are responsible for:

- improving maritime safety for shipping and small craft through regulation and education
- minimising vessel sourced waste and providing response to marine pollution
- maintenance of aids to navigation
- encouraging and supporting innovation in the maritime industry.

State waters extend to the first three nautical miles of the territorial sea from the coast line. Pilotage areas have been gazetted around designated Ports and maritime areas to ensure the safe and efficient movement of shipping. These areas encompass the approaches, main shipping channel and waters of the Port.

Collectively, the Regional Harbour Master and the Port Authority have responsibility for managing the safe and efficient operation of the Port.

For the most current information on these areas, it is recommended that contact be made with the closest office.

Contact

The Regional Harbour Master for Mourilyan is based in Cairns.

For operational maritime questions, marine incidents, pollution, buoy moorings, navigation aids and towage requirements at the Port, please contact the Regional Harbour Master's Office at:

Physical Address: 64-66 Tingira Street, Portsmith Qld 4870
Postal Address: PO Box 1787, Cairns, QLD 4870
Telephone: +61-7-4052 7400
Facsimile: +61-7-4052 7427
Email: RHMCairns@msg.qld.gov.au

After Hours Emergency: 1300 551 899

PORT HANDBOOK

SERVICES – NAVIGATION

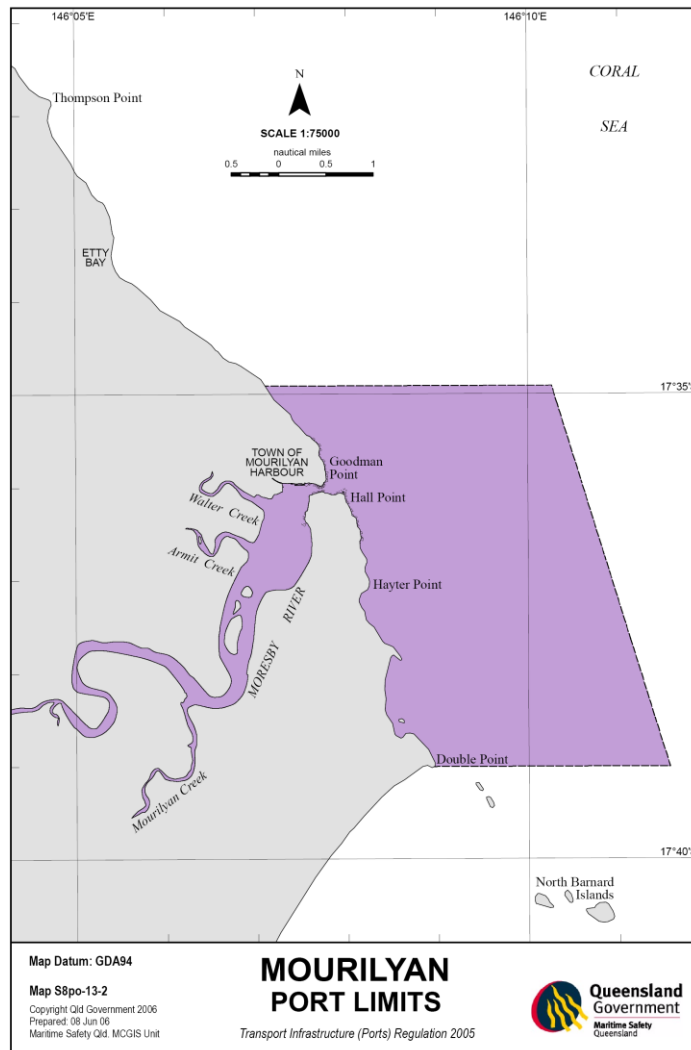

Location

The Port of Mourilyan is located between Latitude 170 36' south and Longitude 1460 08' east.

Port Limits

The Port limits, which are defined in the regulations of the *Transport Infrastructure Act 1994*, are highlighted on the map below and cover the following:

- the Moresby River and connected waterways system from the head of navigation to the river mouth.
- the waters within a two nautical mile radius centred at the south-eastern extremity of Goodman Point and the navigable waters of rivers and creeks flowing directly or indirectly into Port waters.

PORT HANDBOOK

Anchorage

For current anchorage information check 'Notice to Mariners' at <http://www.msq.qld.gov.au/Notices-to-Mariners.aspx>, or contact the Regional Harbour Master's Office by telephone on +61-7-4052-7400 or via email at RHMCairns@msq.qld.gov.au for current anchorage information.

Berth Facilities

There is one berth which is a bulk cargo loading facility which is serviced by conveyor and shiploader; this berth currently handles exports of sugar, molasses and live cattle.

Berth length

The berth length is 193m.

Nominal Depth LAT (at berth pocket)

As at May 2015, the nominal depth lowest astronomical tide (LAT) was 10.1m at berth pocket.

NOTE: Depth is subject to change. Check 'Notice to Mariners' for the Port of Mourilyan at <http://www.msq.qld.gov.au/Notices-to-Mariners.aspx> for current depth information.

Berth pocket (length x width)

The charted berth pocket is 223m x 35m.

NOTE: The berth pocket extends 30m from end of wharf.

Maximum Vessel Size

The port limits ship size to a maximum of 195 m LOA and 32.2 m beam. Vessels with an LOA greater than 175 m will be assessed by the Regional Harbour Master (Cairns) prior to being accepted into the port. Specific vessels of greater length will only be assessed on an individual basis by the Regional Harbour Master (Cairns) on written application and may be subject to simulation before any approval is considered. Further details are available at <http://www.msq.qld.gov.au/Shipping/Port-procedures/Port-procedures-mourilyan.aspx>

Restrictions

- The ballast condition should have the propeller fully immersed with maximum trim 2.5m by the stern with a forward draft not less than 2% of LOA.
- There are no restrictions on time and berthing is at the discretion of the Harbour Master with regards to weather conditions.
- Engines must not be immobilized while alongside.
- Unberthing is in accordance with the state of tide and draft. Under keel clearance required is 10% if draft is 10m or more. If under 10m, under keel clearance is 0.9m.

Depths of water

When approaching, the depth of water is 9.6m below datum. The depth of water at the sugar berth is 10.1m below datum.

PORT HANDBOOK

NOTE: Depths subject to change. Check 'Notice to Mariners' for the port at <http://www.msq.qld.gov.au/Notices-to-Mariners.aspx> for current depth information.

Pilotage

The *Transport Operations (Marine Safety) Act 1995* specifies that, unless a current Pilotage Exemption Certificate (PEC) is held by the Master of a ship. Pilotage is compulsory for:

- a ship that is 50m or more
- a foreign flag ship that is 35m or more
- a vessel towing another vessel where the combined length of the vessels is 50m or more
- a ship whose Owner or Master asks for the services of a Pilot
- a ship whose Master is directed by the Harbour Master to use the services of a Pilot.

Request for Pilot

The requirements of the *Transport Operations (Marine Safety) Regulation 2004* shall be observed for all bookings. Ports North provides a pilotage service for ship arrivals, departures and removals and all pilot transfers are carried out by pilot launch. Initial notification and bookings for pilot services should be made via email with VTS Cairns vtscairns@msq.qld.gov.au.

Notice Required (For Pilotage and Berth)

Ships requiring the services of a Pilot in the Port are required to submit arrival, removal and departure notices no less than the indicated number of hours prior to the desired movement:

- Arrivals 48 hours
- Removals 24 hours
- Departures 24 hours

Tugs

Tug services are provided by Svitzer Australia Pty Ltd. The tug which services Mourilyan has twin screw steering nozzles with 33 tonnes bollard pull from the head and 22.9 tonnes from stern.

PORT HANDBOOK

SERVICES - OPERATION

Application to Berth

An 'Application to Berth' form must be received no later than 48 hours before the vessel's estimated Pilot boarding time (or estimated arrival time in channel for Pilot exempt vessels). The ship's agent will send a blank 'Application to Berth' form to the vessel seven to ten days before their arrival. This ensures up-to-date documents are always used.

Please contact ship's agent for latest information on berthing.

Bunkering

There are no bunkering services available.

Cargo Completion

Vessels must vacate the berth without delay, subject to tidal conditions. Call on VHF Channel 16 and work on VHF Channel 6.

Communications

Pilot vessel and tugs call on VHF Channel 16 and work on VHF Channel 6.

Cyclone Procedures

Detailed cyclone procedures are provided in the Ports North Emergency Response Plan and are consistent with the Regional Harbour Master's Maritime Cyclone Contingency Plan for the Port of Mourilyan. Alert phases in the Port provide a guide for action as a cyclone or severe heavy weather approaches an area. The alert will be announced by the Regional Harbour Master over VHF Channel 16. Once a vessel is moored in its cyclone mooring position, they should contact the Mourilyan Emergency Control Centre (Innisfail Police) on +61-7-4061 1244 to advise where they are moored and how many people will be remaining on board. If no-one is remaining on board, a contact number is to be left. Further details are available at <http://www.msg.qld.gov.au/Safety/Preparing-for-severe-weather.aspx>

Electrical Power

There is no shore power connection available.

Emergency Services

Queensland Fire and Emergency Service is the response agency for any fire within the Port, both land and marine fires. Response will initially be out of Mourilyan, with back-up from Innisfail. Due to the small size of the Port, there are no dedicated fire fighting personnel in the Port.

For coordination of emergency services, contact Ports North Mourilyan office on +61-7-4063 2507 or tony.smith@portsnorth.com.au. For local emergency services telephone '000' and specify if fire, ambulance, or police are required.

PORT HANDBOOK

Estimated Time of Arrival (ETA) Notice

The ETA notice should be faxed at least seven days before arrival to +61-7-4078 2101. Details must include the following:

- name of vessel
- type of vessel
- estimated time of arrival
- total cargo quantity required (subject to C/P requirements and allowances)
- hatch loading sequence, Pour by Pour.

NOTE: To avoid delays to berthing and to avoid tug cancellations, it is important that all adjustments to ETAs are advised to all parties. Please contact the ship's agent or Mourilyan Bulk Sugar Terminal on +61-7-4078 2100 or at dean.o'brien@gldsugar.com for the latest information on arrival notices.

Final Quantity

Please contact the ship's agent for latest information on final quantity.

Fresh Water

There is fresh water available from the wharf.

Fuel

Facilities for fuel are not available at Mourilyan.

Gangway/Deck Watchmen

The ship's gangway is used and the ship's crew are used as watchmen.

Garbage Disposal

The garbage and waste facilities currently provided in the Port to bulk ships is limited to general garbage (which excludes quarantine waste). This service is provided to ships by an independent waste contractor on a "user-pays" basis. Contact the Ports North Mourilyan office by telephone on +61-7-4063 2507, or email at tony.smith@portsnorth.com.au for information on garbage services.

Ship Loader

Details include:

Type:	Travelling gantry with luffing boom:
Design rate maximum capacity:	2300 tph
Average loading capacity:	1800 tph
Length of travel:	143.3mt
Boom operating range:	+15.0 Degrees to -7.5 degrees

PORT HANDBOOK

Maximum outreach from fender line:	13.50mt
Height above datum:	16.39mt above LAT
Height below datum:	26.49mt to bottom of berth
Travel speed:	50m/min not variable.

PORT HANDBOOK

Loaded Tonnage

For loaded tonnage information please contact the ship's agent.

Line Boats

There are no dedicated line boats available at Mourilyan; the Pilot boat will run stern lines as required.

Port Notices/Port Rules and Charges

Port Notices regulate the business operations of the Port. This reference document contains instructions for the orderly conduct of business and public safety in the Port. Copies are displayed at the Ports North Port Office and are also available for downloading from www.portsnorth.com.au.

In addition, this document outlines the process for handling dangerous goods. A person in charge of dangerous goods who proposes to store, handle, carry, use, transport or otherwise deal with any dangerous goods within the Port must notify at least two working days before the date on which it is anticipated the dangerous goods will enter the Port by forwarding a copy of MSQ Form No. F3217 ES 'Dangerous Cargo Report' to the Port Supervisor Mourilyan.

For latest information on Port Rules and Notices for Mourilyan, contact Ports North Mourilyan office by telephone on +61-7-4063 2507 or email tony.smith@portsnorth.com.au.

Stowage Factor

For stowage factor information please contact the ship's agent.

Pratique/Health Regulations

Mourilyan is a first Port of entry and notification of quarantine inspection is required. Quarantine approval to berth is available. Send Quarantine message through to the ship's agent, not less than 72 hours before arrival and an agent will keep the vessel advised. The message is in accordance with the advised procedure in the Sailing Directors for Entry to First Australian Port.

Oil Spill Procedures

Ports North provides trained personnel, equipment and vessels to undertake the clean up of hydrocarbon spills. These trained staff will initiate a first strike response to prevent or minimise any hydrocarbon damage to the environment. The ship must ensure all measures are taken to prevent the release of hydrocarbons into the environment.

Mourilyan is equipped for the smaller oil spills. The Ports North Port Supervisor is responsible for provision of the "first strike" response to an oil spill within the Port and MSQ provides resources out of Cairns, or other centres, for larger oil spills.

In the event of an oil spill, immediately notify the Regional Harbour Master on +61-7-4052 7400 or out of business hours 1300 551 899. Also notify Ports North staff by telephone on +61-7-4063 2507 or 0418 728 803 and if after hours call the Ports North's 24 hour number +61-7-4051 2558.

PORT HANDBOOK

Repatriation

Repatriation can be arranged by the ship's agent.

Restrictions

Access to the wharf and loading plant is restricted. Persons requiring access, crew-members or visitors, must wear safety hard hats, safety shoes, adequate eye protection, high visibility vest/shirts and comply with all safety regulations. QSL and Ports North are not responsible for accidents incurred by personnel who use their wharf gangway.

Pedestrian access along the wharf approach is not permitted. Special authorisation is required for private vehicles and visitors within the Port for wharf access. Access to the remainder of the Port site is strictly forbidden.

Seaman's Clubs

There are no seaman's clubs in Mourilyan.

Ship's Chandler

The chandler will attend vessel if necessary and bonded stores are also available. See the Port Service Providers for contact details.

Shore Leave

The crew are not normally permitted to go ashore except for medical requirements.

Time Zone

Time is Eastern Standard Time and equates to G.M.T + 10 hours. All ETA and other messages should be made in local time.

PORT HANDBOOK

PORT SECURITY

As Mourilyan is a security regulated Port under the *Maritime Transport Security Act 2003*, Ports North has an approved Maritime Security Plan. This Plan was officially approved by the Federal Department of Transport and Regional Services.

Under legislation enacted by the International Maritime Organisation (IMO) there is a procedure ships must follow when entering the Port. Prior to entering the Port of Mourilyan, the ship's Master must report directly to Ports North or via their ship's agent the following:

- International Ship and Port Facility Security Code (ISPS) compliance number
- Current ship security level or any change to the ship security level while in Port
- Ship Security Officer contact details
- List of expected visitors/contractors
- Nominated provedore
- Crew list and identification
- Any security incident (as defined under the ISPS code or Maritime Transport Security Legislation) while in Port.
